

Full-stack Developer React/Node

Heorhii Honcharov

I am a **Full-stack web developer**, able to independently and rationally solve tasks within deadlines and create a healthy and friendly atmosphere in the team. My main technologies: **for frontend - HTML, CSS/SASS, Javascript/Typescript, React, for backend - Node.JS, Express.JS, Mongoose/Sequelize, MongoDB/MySQL**. Containerization using **Docker and the GitHub** version control system. I have a lot of experience with computers, as I took on the responsibilities of a **system administrator** during my studies. I also have a lot of experience in **optimizing websites for search engines** as I have worked in the relevant IT field. I am confident that my experience and knowledge will help you solve your business problems.

Main stack:

JavaScript/TypeScript, React.JS/Redux, Node.js/Express, SEO

Languages:

English (upperintermediate/B2 - continuous improvement);

German (intermediate/B1 - continuous improvement)

Russian, Ukrainian (native speaker);
